RE: Day Light Time Saving - System Clock Adjustment

Dear Customers:

Due to new regulation of Daylight Saving Time effects 03/11/2007; your phone system won't be able to adjust correct automatically. We would like to offer you two different ways for you to change at each Daylight Saving Time.

A. Manual change:

1. Regular procedure to change system clock: (Do it at each Daylight Saving Time)

- a). At extension **100** or **101** (must be a display phone).
- b). Press the **Feature** or **FNC** key and **digit at dial pad 9** and the **#** key.
- c). Enter current **hour** and **Minute** press the **Feature** key.

Note: use the **RECALL** key to toggle between AM/PM.

Cheat Sheet: (Feature 9 # + Hr and Min + Feature)

2. Disable the wrong DAYLIGHT SAVING TIME schedule

(One time change to disable system adjust wrong schedule-at 1st week of April and last week of October in each year.)

- a). From any extension. (Must be a display phone).
- b). Press **FEATURE # 0 * 8 9 7 4** (see PROGRAM MODE on diaply).
- c). Press **LINE KEY 1, LINE KEY 8, AND PRESS DIGIT 48** on dial pad.(line key 1 is led green).
- d). The screen show. **48:DAYLIGHTYES. AND LINE KEY 1 IS LED GREEN. PRESS LINE KEY 2, CHANGE TO NO, AND PRESS TRANSFER or (TRF), THEN PRESS SPEAKER KEY TO EXIT**

Cheat Sheet: (Feature #0*8974 + LK1 + LK8+ 48 + LK2 + Transfer + Speaker)

B. Changing Daylight Saving Time Automatically

Purchase a Upgrade Software License is required and our tech have to be on site to do this upgrade for you.
